

## MPA Community Network

A dynamic platform for connecting people engaged in Marine Protected Areas across Europe. It consists of 3 core components:

-  a **MPA Solutions Hub**;
-  a **networking platform**;
-  **social media**.

### What we do

- **Reduce fragmentation** between projects and initiatives;
- **Strengthen coordination** across MPAs;
- **Enhance collaboration** among MPA managers (and stakeholders, researchers);
- Provide a **one-stop hub** for resources, outputs, and tools to support effective marine conservation across Europe.

**JOIN** <https://mpacommunity.network>

## Blue4All

The MPA Community Network was developed by the Blue4All project.

**Blue4All** is a Horizon Europe Mission Ocean project dedicated to addressing marine conservation and restoration challenges across Europe.

In collaboration with MPA managers and stakeholders from 25 MPAs, the project is developing practical tools and a user-friendly MPA Solutions Hub to support the protection and recovery of the marine environment in a socially just way.

## Networking Platform

Hosted on **BlueBioMatch**, the networking platform offers an interactive space for collaboration across Marine Conservation and the Blue Economy.

MPA managers and stakeholders can:

- **connect** with peers and build partnerships;
- **share** experiences;
- **access** early insights into tools, methods and research.

## MPA Solutions Hub

A practical hub designed to support MPA managers and practitioners by offering:

- **Hands-on** ecological and socioeconomic **tools**;
- **Clear guidance** for everyday management challenges;
- **Support** for meeting EU Biodiversity Strategy and Ocean Restoration Goals.
